Advisory

In view of the spread of COVID-19 Novel Coronavirus disease in various parts of the country, Government of India has issued several advisories to contain the spread of the virus via public contact. As collection of biometrics is mandatory for Aadhaar Enrolment/Update, it is important to take precautions. UIDAI strongly recommends all its Registrars/EA's at all Aadhaar Enrollment/update centres to follow the advisories issued by Government of India and take following measures:

1. All Enrolment Centre premises as well as devices shall be sanitized daily.
2. All operators and other staff at the Enrolment Centre shall follow appropriate hygiene practices such as washing hands regularly.
3. The staff shall avoid touching their eye/ nose/ mouth while working.
4. The residents visiting Enrolment Centre shall also be encouraged to wash their hands with soap and water before using the biometric devices.
5. The operator shall clean the biometric devices after every enrolment/update.
6. Any staff member suffering from cold, cough, sneezing, etc. may not be allowed to continue Aadhaar operations, till he/she gets healthy.
7. If any visitor is suffering from fever, cough and difficulty breathing, he/she may be advised to come back after they are well.
8. The Centre Manager shall not permit crowding at the center and promote online appointment at all centres.
9. Every Enrolment Centre shall display advisory for residents as per the template provided by UIDAI.

In addition to the above, all staff at Aadhaar centres is advised to keep up-to-date on the latest COVID-19 hotspots (cities or local areas where COVID-19 is spreading widely). If possible, avoid traveling to places - especially if you are an older person or have diabetes, heart or lung disease.

As you are aware the Novel CoronaVirus Disease (COVID-19) has now spread to more than 75 countries causing close to 93000 cases and more than 3200 deaths worldwide. The World Health Organization (WHO) on 30th January, 2020 declared this outbreak as a Public Health Emergency of International Concern (PHEIC). Though, WHO has not yet declared it to be a pandemic, it has advised countries to remain prepared for one.

Several confirmed cases have also been detected in India. Although, we are taking all steps necessary to prevent further importation of such cases and to also prevent local transmission of this disease in India, it will be prudent to raise community awareness about common signs and symptoms of this disease and advocate simple public health measures, the community may undertake to prevent infection.

Towards this end, this Ministry is in the process of disseminating pertinent information to the community through all channels of communication and from all possible vantage points. We have designed posters & Audio Video products towards this end, some of which are being sent along with this letter. Soft copies of these are available on Ministry’s website (https://mohfw.gov.in/node/4904). You are requested to widely disseminate the same.

As department of Posts has a network of more than 1.5 lakh post offices, the largest in the world, it is opportune that we leverage this network to prominently display / disseminate the dos and don’ts of COVID-19 across the country. If your parcel tracking website can display a link (https://mohfw.gov.in/node/4904) to our page with information on Corona, it would be highly appreciated.

To pre-empt any further risk of spread of COVID-19, I urge you to personally monitor that mechanisms are in place for successful dissemination of these messages to the maximum number of people.

Yours sincerely

(Arun Singhal)

NOVEL CORONAVIRUS (COVID-19)

Protect yourself and others!
Follow these Do's and Don'ts

Do's

- Practice frequent hand washing. Wash hands with soap and water or use alcohol-based hand rub. Wash hands even if they are visibly clean.
- Cover your nose and mouth with hands or a flexed elbow while sneezing and coughing.
- If you have a fever, do not go to work or leave your home. Call your local public health authority.
- Avoid close contact with anyone who has symptoms of fever and cough.
- Wear a mask to cover your mouth and nose.
- Throw used tissues into closed bins immediately after use.
- Avoid participating in large gatherings.

Don'ts

- Touch your eyes, nose and mouth.
- Spit in public.

Together we can fight Coronavirus
